Instructions to run the code:

- Find the google drive link for code below:
  https://drive.google.com/drive/folders/16pHXQ8qzmXjNVOa-an417trUzvRc7f-d?usp=share_link

- Download the code.zip folder and Upload the folder in your google drive.
- Open "LSTM.ipynb" and "TextRank and K-means.ipynb" using google collab.
- Replace the csv file path in below code with the file path located in your google drive in both .ipynb files.

```
data = pd.read_csv("/content/drive/MyDrive/nlp/Final_Code/Dataset/Reviews_updated_1.csv",nrows=100000)
# Here provide the path to the Reviews file
```

- Now run .ipynb files one after the other.
- While running google collab will prompt for google drive access. Press "Allow" by signing selecting your gmail.

Note: each python file taking 2-3 hours to run
